

PRINCE2® Agile Practitioner

Course code: PRINCE2APT

PRINCE2 Agile® Practitioner is a two day accredited training that deepens and, on practical examples, exerts a way to extend the standard PRINCE2® project management methodology to agile management. You will practice how to use the five basic habits of agile management (transparency, collaboration, frequent communication, self-organization, and exploration) while taking advantage of PRINCE2 procedures and products. This allows you to combine the best of both worlds and increase the likelihood of successful completion of the project. The PRINCE2 certification is not required to complete the course. Accredited PRINCE2 Agile® Practitioner training is provided by Agilist s.r.o., accredited by PeopleCert Examination Institute.

Who is the course for

All project managers, executives and specialists with basic knowledge or awareness of PRINCE2®, who need to accelerate the delivery of at least partial project outputs, want to use the agile tools (SCRUM, eXtreme Programming, Kanban, etc.) and to ensure sufficient flexibility within a structured environment.

What we teach you

- Practical verification of agile habits, methods and principles
- Practical assessment of readiness of the environment and associated risks
- Practical work with six aspects of the project management in an agile environment
- Practical adaptation of PRINCE2 processes and themes to the agile environment

Required skills

- Practical project management
- Advanced practical project management
- Project management according to PMBOK
- PRINCE2 Agile Foundation
- PRINCE2 2009 Foundation
- PRINCE2 2017 Foundation

Teaching materials

Every candidate receives complete presentation in English language. Then he/she receives official manual PRINCE2 Agile, glossary and mock exams including rationals.
