

# Microsoft PowerPoint & Copilot workshop: AI hravě a kreativně

Course code: MSCOP\_PW

In today's fast-paced business world, staying one step ahead is key. Artificial intelligence and modern technology provide us with tools that can greatly facilitate our work and increase efficiency. Microsoft Copilot 365 is one such revolutionary tool that helps you create professional and impressive PowerPoint presentations faster and more efficiently than ever before. This workshop is specially designed for those who want to make the most of the paid version of Microsoft Copilot 365 in PowerPoint. We will focus on the practical use of this tool with an emphasis on various professional situations. You will learn not only how to enter prompts in Copilot, but also, of course, how to adapt and edit presentations according to specific needs and use other advanced PowerPoint tools.

## For whom the course is intended

The course is designed for everyone who wants to use the power of artificial intelligence to creating professional and impressive presentations without wasting time. Either you are a marketing specialist, businessman, HR manager, lawyer, entrepreneur or teacher, this course will show you how to effectively use Copilot in your daily life work.

## Course Outline
