

# Preparation for the OCUP 2 Advanced certification exam

Course code: BEOCPADV

The OCUP 2 Advanced certification exam is the third and at the same time the last level for testing UML knowledge, following on from OCUP 2 Intermediate. The training, which is intended to prepare the participants for its completion, covers all the required areas (requirements are detailed on the OMG website): Basic structures (templates, profiles, information flows)

Classification

Structured Classifiers

Basics of Behavior - Advanced Techniques

State machines

Activities

Action

Interaction

Metamodeling:

MOF

fUML

Alf

## Who is the course for

To all who have:

- Practical knowledge of UML
- Knowledge required for the previous level - OCUP 2 Intermediate

## Teaching methods

Professional explanation with practical samples and examples.

## Teaching materials

BEANZ guide book for this course.

## Additional information

The OCUP 2 Advanced certification exam was put into operation at the end of 2018. We are preparing training for this level in the fourth quarter of the same year.
