Agile Coaching Skills - Certified Facilitator kurz

Course code: SCRUM_ACS-CF

Facilitation is a necessity in an agile environment. This skill is not only a must for ScrumMasters and Agile Coaches, but it is quite handy for Product Owners as well. We practice facilitation of Scrum events, refinement, and multi-team collaboration events at the organizational level.The 2 days workshop is practical training on facilitation techniques. We use situations from an agile environment brought by participants and practice facilitation mindset, skills, and tools. You will work in self-organizing teams, supporting each other on your journey, and sharing experiences, and hints. You will leave with a handy toolbox applicable to a variety of real-life situations in an agile environment. Most importantly, by receiving the ACS-CF certification, you will improve your implementation of Agile and Scrum in the workplace and keep your teams on the right track.
