

# Agile methods and Scrum process - Intro

Course code: SCRUM1

Would you like to learn more about Agile methods and Scrum process?

Course provide basic overview of Agile methods, Scrum process and Extreme Programming (XP) methods. Learning will be achieved from the discussions between participants and will provide basic knowledge-base for those who are starting agile adoption process within the company, department or a project. Going agile, is not about the technology and particular project specifics, but more about the willingness to accept new ideas, new way of doing things and readiness to change. Course will give you a guideline where to start, which methods to implement and a general idea how to adopt agile methods in your environment.

If you interesting opportunity to obtain a certificate ICAgile Certified Professional (ICP), choose a course SCRUM1C
