

DAO - Certified – Designing Agile Organizations

Course code: SCRUM.DAO

Unlock the Secrets to Building Agile Organizations: Embrace a Paradigm Shift! Are you prepared to shatter the biggest misconception surrounding agile? Brace yourself, because it's not merely a superficial process or a fleeting trend. Agile is a holistic transformation that transcends mere methodologies, mindsets, and cultural shifts. Unfortunately, countless senior managers mistakenly believe that implementing agile is as simple as providing training to frontline employees. But let us reveal the unvarnished truth: the cornerstone of unlocking the full potential of agile lies in the very fabric of organizational design. Don't allow misguided notions to impede your path to unprecedented triumph. Now is the time to revolutionize your organization and harness the formidable power of organizational design—a transformative approach that ensures your organization's seamless adaptation to the ever-evolving needs of your customers. Join us on an exhilarating journey to craft truly agile organizations that thrive amidst complexity. Together, let's unravel the enigma of organizational design and unleash a systemic revolution that will redefine the boundaries of success! Enroll now and seize your chance to dominate the realm of agile organizations!

Who is the course for

This course is designed for leaders who play a pivotal role in redesigning an agile organization. We highly recommend senior leadership, technology professionals, and business representatives to attend, preferably as a united team.

Together, you'll harness the collective wisdom and insights needed to drive a successful organizational transformation. Don't let outdated thinking hold you back. Unleash the power of organizational design and embark on a journey towards an agile, customer-centric future. Get ready to reimagine what's possible for your organization!

What we teach you

Design your organization to embrace adaptability and deliver the highest value.

Understand the profound impact of organizational design on management, processes, and structure.

Embrace a systemic approach to enhance your organization's performance and drive exceptional results.

What will you get

At the completion of our immersive course, all participants will be awarded a prestigious Designing Agile Organizations certificate, recognizing their commitment to mastering the art of organizational design in the agile realm. But that's not all!

As a token of our appreciation, each attendee will also receive a valuable digital copy of the acclaimed book "Creating Agile Organizations." This insightful resource will serve as a constant companion, providing inspiration and guidance long after the course concludes.

Embark on your journey towards agile organizational excellence and ensure your success is backed by knowledge, recognition, and a powerful literary companion. Join us today and unlock the tools to create lasting organizational impact!
