

Securing Email with Cisco Email Security Appliance

Course code: SESA

At the end of the course, attendees will possess a working knowledge of how to use Cisco IronPort email security appliances to successfully manage and troubleshoot email traffic entering and leaving the enterprise network. Attendees receive in-depth instruction on the most commonly used product features.

Required skills

- A moderate knowledge of TCP/IP fundamentals.
- Experience with Internet-based messaging, including SMTP, Internet message formats, and MIME message format.
- Familiarity with command line interface (CLI) and graphical user interface (GUI) is recommended.

Teaching methods

Professional explanation with practical samples and examples.
