

# Building SAS® Studio Flows in SAS® Viya®

Course code: VSTU1C

This course is for users who do not have SAS programming experience but need to access and prepare data, and present summarized results. This course focuses on using flows, a point-and-click tool in SAS Studio that visualizes data transformation processes.

## Who is the course for

Business analysts who would like to get started using SAS Studio in SAS Viya to access, prepare, and analyze data

## What we teach you

- Access and manipulate data of various types
- Create queries that filter and sort data, compute new columns, and join multiple tables
- Create dynamic summary reports

## Required skills

No SAS experience or programming experience is required, although you should have some computer experience

## Course outline

### Getting Started

- Introducing SAS Studio
- SAS Studio flows

### Accessing Data

- Understanding SAS data
- Accessing data through libraries
- Importing data

### Transforming and Analyzing Data

- Creating simple queries
- Using SAS Studio Analyst steps
- Creating results with tasks
