

# Microsoft Identity and Access Administrator

Course code: MOC SC-300

This course provides IT Identity and Access Professional, along with IT Security Professional, with the knowledge and skills needed to implement identity management solutions based on Microsoft Azure AD, and its connected identity technologies. This course includes identity content for Azure AD, enterprise application registration, conditional access, identity governance, and other identity tools.

## At course completion students will be able

Implement an identity management solution

Implement an authentication and access management solutions

Implement access management for apps

Plan and implement an identity governance strategy

## Prerequisites

Knowledge in extent of the courses which are listed in the below sections **Previous Courses** and **Related Courses**

Good understanding of TCP/IP and DNS technologies

## Course outline

Implement Initial configuration of Azure AD

Create, configure, and manage identities

Implement and manage external identities

Implement and manage hybrid identity

Secure Azure AD user with MFA

Manage user authentication

Plan, implement, and administer conditional access

Manage Azure AD identity protection

Plan and design the integration of enterprise for SSO

Implement and monitor the integration of enterprise apps for SSO

Implement app registration

Plan and implement entitlement management

Plan, implement, and manage access reviews

Plan and implement privileged access

Monitor and maintain Azure AD

## Preparation for Microsoft certification

Most Microsoft certification exams do not require students to attend an official MOC course in order to pass the exam.

This applies to all certifications except for MCM

Official Microsoft MOC courses as well as our own GOC courses are good ways of preparation for Microsoft certifications such as MCP, MTA, MCSA, MCSE or MCM

This does not mean that official MOC courses would serve as the only necessary preparation. The primary goal of an MOC course is to provide for sufficient theoretical knowledge and practical experience to effectively work with the related product

# Microsoft Identity and Access Administrator

MOC courses usually cover most of the topics required by their respective certification exams, but often do not give every topic the same amount of time and emphasis as may be required to completely pass the exam
