

HPE Aruba Networking Switching BASIC

Course code: HPASB

HPE Aruba Networking Switching BASIC is a technical training course designed to provide you with the knowledge required for the basic design and implementation of wired networks on the Aruba CX platform. The training focuses on practical demonstrations, including hands-on labs using physical switches.

Who is the course for

IT professionals, system integrators, and companies looking to leverage cutting-edge technologies in wired and wireless networking, security, and infrastructure management.

What we teach you

- HPE Aruba Networking CX Switching Portfolio
- Basic Switch Configuration
- VLANs and IP Services
- Link Aggregation
- Spanning Tree
- Virtualization Technologies
- Routing

Required skills

Basic knowledge of networking technologies is assumed.

Teaching materials

Participants are required to bring their own laptop and a USB-C cable to the training.
