

COBIT 2019 Foundation

Course code: COBIT19F

COBIT® is a framework for the enterprise governance and management of information and technology (I&T) that supports enterprise goal achievement. This Foundation Course is intended for current COBIT 5 Foundation Certificate holders as well as those new to COBIT who are interested in achieving the latest foundation certificate. This two-day course highlights the concepts, models and key definitions of the COBIT framework and helps prepare learners to take the COBIT 2019 Foundation Exam.

Target group

The course is recommended for:

- Boards
- Executive management
- Business management
- IT management
- Internal/External auditors
- Risk managers
- Regulators
- Partners
- Vendors

Take away

At the end of this training, you will have gained the knowledge and skills to:

- Recognize the context, benefits and key reasons COBIT is used as an information and technology governance framework.
- Recognize the descriptions and purposes of the COBIT product architecture.
- Recall the alignment of COBIT with other applicable frameworks, standards and bodies of knowledge.
- Understand and describe the governance “system” and governance “framework” principles.
- Describe the components of a governance system.
- Understand the overall structure and contents of the Goals Cascade.
- Recall the 40 Governance and Management Objectives and their purpose statements.
- Understand the relationship between Governance and Management Objectives and Governance Components.
- Differentiate COBIT based performance management using maturity and capability perspectives.
- Discover how to design a tailored governance system using COBIT.
- Explain the key points of the COBIT business case.
- Understand and recall the phases of the COBIT implementation approach.
- Describe the relationships between the COBIT Design and Implementation Guides.
- Prepare for the COBIT 2019 Foundation exam.
