HPE Aruba Networking ClearPass BASIC

Course code: HPACPB

Are you interested in learning how to deploy the HPE Aruba Networking ClearPass NAC solution for wired and wireless networks? This technically focused training will cover exactly that, with a primary focus on Aruba ClearPass Policy Manager.

Who is the course for

Designed for IT professionals, system integrators, and organizations seeking to leverage best-in-class technologies for wired and wireless networking, security, and infrastructure management.

What we teach you

Through hands-on labs, you will explore various authentication methods and gain practical guidance on configuring common deployment scenarios.

- Enhance your competitiveness in the job market.
- Gain the skills to implement modern networking solutions for schools, hospitals, businesses, and public sector organizations.
- Benefit from local technical support and expert consulting provided by our experienced specialists.

The training includes hands-on labs and real-world scenario simulations.

Teaching materials

Please bring your own laptop and a USB-C cable to the training.
