HPE Aruba Networking Mobility BASIC

Course code: HPAMB

HPE Aruba Networking Mobility is a technical training course focused on wireless networking based on Aruba solutions with a physical controller. The course includes hands-on labs where you will explore various deployment scenarios and gain practical guidance on configuring a basic Wi-Fi environment.

Who is the course for

For IT professionals, system integrators, and organizations looking to leverage industry-leading technologies for wired and wireless networking, security, and infrastructure management.

What we teach you

- Basic Configuration
- AP Provisioning
- WLAN Configuration
- Authentication (MAC Authentication, 802.1X, Captive Portal)

Our courses are delivered by Aruba instructors and provide the knowledge required for the successful deployment, configuration, and management of Aruba solutions.
