HPE Aruba Networking Switching ADVANCED

Course code: HPASA

HPE Aruba Networking Switching ADVANCED is an advanced technical training course designed to provide participants with the knowledge and skills required to design and implement advanced wired networking technologies on the Aruba CX platform. The course focuses on network security and includes hands-on lab exercises using physical Aruba CX switches. A solid understanding of fundamental networking technologies is recommended as a prerequisite.

Who is the course for

IT professionals, system integrators, and organizations that want to leverage cutting-edge technologies in wired and wireless networking, security, and infrastructure management.

What we teach you

- HPE Aruba Networking CX Switching Portfolio
- Protocol and Port Protection
- Access Control Lists (ACLs)
- User Authentication
- Dynamic Segmentation
- Quality of Service (QoS)
- Multicast
- High Availability

Teaching materials

Participants are required to bring their own laptop and a USB-C cable to the training.
