Cortex XDR: Security Operations and Integration (replaced EDU-260)

Course code: EDU-260

This 3-day instructor-led course provides in-depth training on Cortex XDR, Palo Alto Networks' powerful extended detection and response platform. You will gain hands-on expertise in security operations, incident investigation, and system optimization to effectively protect modern environments. Throughout this course you will explore the key features of Cortex XDR.This course replaces Cortex XDR: Prevention and Deployment (EDU-260)

Who is the course for

What we teach you

The course is designed to enable cybersecurity professionals, particularly those in SOC/CERT/CSIRT and engineering roles, to use XDR.

The course reviews XDR intricacies, from fundamental components to advanced strategies and techniques, including skills needed to configure security integrations, develop workflows, manage indicators, and optimize dashboards for enhanced security operations.

Required skills

Participants must be familiar with enterprise product deployment, networking, and security concepts
