Automating BIG-IP with AS3

Course code: F5_AS3

This training starts with reviews of the Linux command line and application creation on BIG-IP and continues with the introduction of Automation and DevOps terminology and concepts. It then introduces JavaScript data types and JavaScript Object Notation, which provide the data encapsulation for imperatively programming BIG-IP with the iControl REST API. Declarative APIs are introduced the final lessons which are used to automate BIG-IP application creation and BIG-IP system onboarding.
