Who is the course for

- Administrators who have completed GW-001 Fundamentals,
- IT specialists managing a larger number of users and applications,
- staff members who want to deepen their knowledge of Google Workspace administration.

What we teach you

Participants will learn to manage users, organizational units, groups, and applications more efficiently, as well as monitor activity within the organization. The course focuses on practical and effective use of the Admin Console and on optimizing the company environment.

- manage users, OUs, and groups efficiently,
- assign and optimize applications for users and OUs,
- monitor activities and create audit reports,
- handle advanced administrative scenarios in a corporate environment,
- optimize Google Workspace administration for efficient company operations.

Required skills

- knowledge of Google Workspace administration (GW-001 or equivalent experience),
- access to the Admin Console with a super administrator role.
