

# Microsoft 365 Endpoint Administrator

Course code: MOC MD-102

In this course, students will learn to plan and execute an endpoint deployment strategy using contemporary deployment techniques and implementing update strategies. The course introduces essential elements of modern management, co-management approaches, and Microsoft Intune integration. It covers app deployment, management of browser-based applications, and key security concepts such as authentication, identities, access, and compliance policies. Technologies like Azure Active Directory, Azure Information Protection, and Microsoft Defender for Endpoint are explored to protect devices and data.

Affiliate	Duration	Course price	ITB
Praha	5	37 000 Kč	50
Brno	5	37 000 Kč	50
Bratislava	5	1 480 €	50

The prices are without VAT.

## Prerequisites

Knowledge in extent of the courses which are listed in the bellow sections **Previous Courses** and **Related Courses**

Good understanding of TCP/IP and DNS technologies

## Course outline

Explore the Enterprise Desktop

Explore Windows Editions

Manage Azure Active Directory identities

Manage device authentication

Enroll devices using Microsoft Configuration Manager

Enroll devices using Microsoft Intune

Execute device profiles

Oversee device profiles

Maintain user profiles

Execute mobile application management

# Microsoft 365 Endpoint Administrator

Deploy and update applications  
Administer endpoint applications  
Protect identities in Azure Active Directory  
Enable organizational access  
Implement device compliance  
Generate inventory and compliance reports  
Deploy device data protection  
Manage Microsoft Defender for Endpoint  
Manage Microsoft Defender in Windows client  
Manage Microsoft Defender for Cloud Apps  
Assess deployment readiness  
Deploy using the Microsoft Deployment Toolkit  
Deploy using Microsoft Configuration Manager  
Deploy Devices using Windows Autopilot  
Implement dynamic deployment methods  
Plan a transition to modern endpoint management  
Manage Windows 365  
Manage Azure Virtual Desktop

## **Preparation for Microsoft certification**

Most Microsoft certification exams do not require students to attend an official MOC course in order to pass the exam.

This applies to all certifications except for MCM

Official Microsoft MOC courses as well as our own GOC courses are good ways of preparation for Microsoft certifications such as MCP, MTA, MCSA, MCSE or MCM

This does not mean that official MOC courses would serve as the only necessary preparation. The primary goal of an MOC course is to provide for sufficient theoretical knowledge and practical experience to effectively work with the related product

MOC courses usually cover most of the topics required by their respective certification exams, but often do not give every topic the same amount of time and emphasis as may be required to completely pass the exam
