

# Introduction to the Svelte framework

Course code: JS\_SVELTE1

This course is designed for intermediate JS programmers who want to learn how to create front-end applications using the Svelte framework. Participants will learn the basics of front-end development (data presentation, events, forms, communication with back-end api, navigation) using the SVELTE library. The course assumes knowledge of the DOM object model in the browser at the course level [JS\_DOM1] and moderately advanced knowledge of JavaScript at the course level [JS\_PROG2].

Affiliate	Duration	Course price	ITB
Praha	3	15 300 Kč	30
Brno	3	15 300 Kč	30
Bratislava	3	612 €	30

The prices are without VAT.

## Course terms

Date	Duration	Course price	Type	Course language	Location
 01.06.2026	3	15 300 Kč	Telepresence	CZ/SK	GOPAS Praha
 01.06.2026	3	612 €	Telepresence	CZ/SK	GOPAS Bratislava
 01.06.2026	3	15 300 Kč	Telepresence	CZ/SK	GOPAS Brno

The prices are without VAT.

## For whom the course is intended

- This course is designed for intermediate JS programmers

## What we will teach you

- How to build a development environment for Svelte
- How to present data on a page
- Respond to user events
- Process user input
- Communicate with the back-end
- Manage application state

## Required input knowledge

- JavaScript at course level [JS\_PROG2]
- Course-level knowledge of how the DOM works in a browser [JS\_DOM1]

## Course outline

### Introduction

- What is Svelte
- Development environment
- Hello World
- Project structure

### Data presentation

- interpolation
- conditional rendering
- repeated rendering
- CSS styles and classes

# Introduction to the Svelte framework

## Interaction with the user

- event response
- forms and inputs

## Components, collaboration and status sharing

- Component targeting
- Life cycles
- Component Property
- Forwarding events
- Reactive values
- Store

## Communication with backend and other async processes

## Introduction to Svelte kit
