

# Microsoft Power BI Data Analyst

Course code: MOC PL-300

The course is designed for data analysts, business intelligence specialists and report writers who want to learn how to analyze and visualize data using Microsoft Power BI Desktop and the Microsoft Power BI cloud service. In the course, you will learn how to design a report data model, load data from various data sources and then visualize them in the form of interactive reports or dashboards. The course will also teach you how to publish and securely share the reports you create with your colleagues and optimize the performance of your reports.

Affiliate	Duration	Course price	ITB
Praha	3	22 200 Kč	30
Brno	3	22 200 Kč	30
Bratislava	3	960 €	30

The prices are without VAT.
