Who is the course for

This course is intended for Infrastructure Administrators and System Engineers who are looking to learn how to administer HPE SimpliVity 380.

What we teach you

Upon completion of this training the participant will be able to:

- Describe the HPE SympliVity 380 product physical characteristics and software architecture
- Use the HPE SimpliVity 380 vSphere User Interface for management tasks
- Use RapidDR to reduce service disruptions by automating remote site recovery

Required skills

HPE recommends that students have attended the following courses or attained the following levels of experience

before taking this class:

- Networking technologies
- VMware vSphere 6
- HPE ProLiant Servers

Course outline

Module 1: HPE SimpliVity overview

- The data problem
- The evolution of hyperconvergence
- HPE SimpliVity use cases / key business challenges
- HPE SimpliVity 380 HyperGuarantee
- What is an HPE SimpliVity 380 system
- HPE SimpliVity system architecture
- Arbiter
- HPE SimpliVity 380 Networks

Module 2: SimpliVity Data Virtualization Platform

HPE SimpliVity System Administration

- HPE SimpliVity 380 Data Virtualization Platform (DVP)
- HPE SimpliVity RapidDR
- Data virtualization platform deep dive
- File system
- Object Store I/O write path
- Cluster-level data management
- Federation-level data management
- Advantages

Module 3: HPE SimpliVity data management

- HPE SimpliVity data paths
- Data Resiliency
- vCenter resiliency
- Data locality

Module 4: HPE SimpliVity user interface overview

- Getting started
- Features within the vSphere Web Client
- How to maneuver through the vSphere Web Client
- vCenter inventory list
- The SimpliVity federation actions
- SimpliVity federation home tab

Module 5: HPE SimpliVity Clusters and Datastores

- Clusters
- Datastores
- Configuring ESXi access nodes

Module 6: HPE SimpliVity backups

- SimpliVity backups

Module 7: Other HPE SimpliVity features

- Hosts
- Virtual machines
- HPE SimpliVity restore
- SimpliVity file level restore
- SimpliVity clone
- SimpliVity move
- VM templates
- Moving an HPE SimpliVity node between clusters
- HPE OmniStack Virtual Controller (OVC) shut down

Module 8: Extending HPE SimpliVity 380

- REST API
- HPE SimpliVity CLI
- HPE SimpliVity RapidDR

HPE SimpliVity System Administration

Module 9: HPE SimpliVity 380 services and support

- HPE SimpliVity support plans
- HPE SimpliVity 380 hardware services
- Alarm and events overview
