

ITIL® 4 Leader: Digital and IT Strategy

Course code: HU0C6S

The ITIL® 4 Leader: Digital and IT Strategy course provides guidance about crafting a digital vision and shaping IT and business strategies. The course focuses on the alignment of digital business strategy with IT strategy, adding a new perspective to the ITIL suite and elevating the discussion around ITIL concepts to a strategic level among business leaders and aspiring leaders. It also covers the disruptive impact of new technologies in every industry, as well as the response from business leaders. In addition, it explores the use of the ITIL framework to support organizations in their digital transformation journey by providing a structured and flexible approach for addressing service management challenges and utilizing the potential of modern technology to get the most value from digital technology. It also adds a new perspective to the ITIL suite and elevates the discussion around ITIL concepts to the very strategic level among companies and business leaders.
