

# VMware Cloud Foundation: Deploy, Configure, Manage [V5.2]

Course code: VMW\_CFDCM

This five-day course provides you with the knowledge, skills, and abilities to achieve competence in deploying, managing, and operating VMware® Cloud Foundation™. You will learn about the architecture of VMware Cloud Foundation, storage and network management, licensing, and certificates. In addition to workload domains, availability, life cycle management, and troubleshooting, the course also covers VMware® Aria Suite™ integration and VMware® Private AI Foundation with NVIDIA architecture and components
