

The Art of Business for Managers

Course code: KOROM

The workshop focuses on the role of the manager as a key driver of sales performance. Participants will learn how to support salespeople in working with clients, how to improve the quality of sales conversations, and how to create an environment that fosters business success. The program connects the principles of consultative selling, working with client needs, and the Diamond Model of Sales Habits, which shows that long-term sales results are built on three pillars: salespeople's skills, their motivation, and a well-structured work system. A large part of the workshop is based on discussion and practical situations from real business practice.
