

# Omnissa Horizon: Advanced Integrations

Course code: VMW\_OHAI

The primary objective of this session is to demonstrate the world's leading End-User Computing (EUC) product stack and its solutions-focused approach to solving business challenges.

| Affiliate  | Duration | Course price | ITB |
|------------|----------|--------------|-----|
| Praha      | 5        | 49 500 Kč    | 0   |
| Brno       | 5        | 49 500 Kč    | 0   |
| Bratislava | 5        | 2 000 €      | 0   |

The prices are without VAT.

## Course terms

| Date         | Duration | Course price | Type   | Course language | Location                 |
|--------------|----------|--------------|--------|-----------------|--------------------------|
| ☀ 20.07.2026 | 5        | 46 530 Kč    | Online | EN              | TD SYNnex Czech - Online |
| ☀ 17.08.2026 | 5        | 46 530 Kč    | Online | EN              | TD SYNnex Czech - Online |
| 21.09.2026   | 5        | 49 500 Kč    | Online | EN              | TD SYNnex Czech - Online |
| 19.10.2026   | 5        | 49 500 Kč    | Online | EN              | TD SYNnex Czech - Online |
| 16.11.2026   | 5        | 49 500 Kč    | Online | EN              | TD SYNnex Czech - Online |
| 14.12.2026   | 5        | 49 500 Kč    | Online | EN              | TD SYNnex Czech - Online |

The prices are without VAT.

## Who is the course for

- Systems Engineers
- Consulting Architects
- Citrix Specialists (who would like to upskill on Workspace ONE with Horizon)
- Microsoft End-User Computing Specialists

## What we teach you

As a solution-focused offering, we start with an already deployed multi-site Horizon environment.

Our focus is on how Workspace ONE with Horizon can help solve business challenges from a manageability, security, availability, recoverability, and performance perspective.

The philosophy at the heart of Workspace ONE is the end-user experience: simple yet secure, regardless of the endpoint platform.

## By the end of this session, attendees should be able to:

- Integrate Horizon with Horizon Cloud NEXT GEN.
- Deploy the Unified Access Gateway, with their own developed PowerShell Script.
- Configure a seamless multi-site access solution with NSX Advanced Loadbalancer using Global Server Load balancing and Local Server Load balancing.
- Configure Horizon Cloud Pod Architecture to solve high availability and scalability requirements.
- Configure a secure Single Sign-On solution using Workspace ONE Access and secured endpoints using Workspace ONE UEM.
- Integrating Horizon with OPSWAT.
- Integrate with untrusted Active Directory Forests to provide secure resources when organizations are isolated.
- Deploy Apps-on-Demand with a view to maintaining redundancy and enhancing manageability in a multi-site Enterprise.

# Omnissa Horizon: Advanced Integrations

- Facilitate and manage the end-user experience for Microsoft Windows Users using Dynamic Environment Manager.
- Integrate with ThinApp to help with legacy application and platform challenges.

## Required skills

- Omnissa Certified Professional Desktop (OCPD)
- Having a base understanding of Horizon is beneficial.
- A background in End-User Computing is recommended. Additional platform knowledge of vSphere is advantageous.
