|  31.08.2026   | 3        | 11 475 Kč    | Online   | CZ/SK           | Online           |
| 31.08.2026   | 3        | 600 €        | Online   | CZ/SK           | Online           |
| 21.10.2026   | 3        | 13 500 Kč    | Presence | CZ/SK           | GOPAS Brno       |
| 26.10.2026   | 3        | 600 €        | Presence | CZ/SK           | GOPAS Bratislava |
| 18.11.2026   | 3        | 13 500 Kč    | Presence | CZ/SK           | GOPAS Praha      |
| 21.12.2026   | 3        | 13 500 Kč    | Online   | CZ/SK           | Online           |
| 21.12.2026   | 3        | 600 €        | Online   | CZ/SK           | Online           |

The prices are without VAT.

## For whom the course is intended

The course is intended for administrators and architects of security and IT infrastructure primarily built on Active Directory (AD DS) and Azure Active Directory (AAD) or Entra ID (EntraID)

## Assumed entry knowledge

Knowledge in the range of courses listed in the sections **Previous courses** and **Related courses**

Good knowledge of TCP/IP and DNS

technologies

## Course outline

Introduction to the technologies of central management of clients and servers over on-prem Active Directory

Connecting clients to Active Directory (domain join)

Management of computers using Group Policy (GPO)

Basics and principles of functioning of GPO

GPUPDATE and GPUPDATE /force

Administrative templates (administrative templates, ADMX)

Security policy and Windows Firewall

# Windows Server - managing computers with Group Policy and LAPS

- Filtering and applying GPOs above the OU hierarchy
- Security filters and groups (security filtering)
- User policies and settings
- Group Policy Preferences and their options and item filtering
- Loopback processing
- WMI filtering
- Scripting and automation for Group Policy
- Monitoring and troubleshooting Group Policy
- Backup, restore and GPO transfers and migrations
- BitLocker and its management
- Creating an inventory of computers and their hardware
- LAPS (Local Admin Password Solution)
- Deployment and administration of LAPS over on-prem Active Directory

## Preparation for certification exams

For Microsoft certification exams, apart from MCM certifications, participation in the official MOC course is not a necessary condition for passing the exam

Microsoft's official MOC courses as well as our own GOC courses are a suitable part of the preparation for Microsoft certification exams such as MTA, MCP, MCSA, MCSE, or MCM

However, the primary goal of the course is not directly preparation for certification exams, but the mastery of theoretical principles and the acquisition of practical skills necessary to work effectively with the given product

MOC courses usually cover almost all areas required for the corresponding certification exams. However, their discussion in the course is not always given exactly the same time and emphasis as required by the certification exam

For example, books from MS Press (so-called Self-paced Training Kit) and electronic self-test software can be used as additional preparation for certification exams.
