Prerequisities

Knowledge in extent of the courses which are listed in the bellow sections Previous Courses and Related Courses

Good understanding of TCP/IP and DNS technologies

Course outline

Extending the Configuration Manager infrastructure to support internet-based and mobile devices

Managing clients on the internet

Managing Microsoft Store for Business apps by using Endpoint Configuration Manager

Managing Office 365 apps by using Endpoint Configuration Manager

Mobile device management by using Endpoint Configuration Manager

Hybrid MDM with Endpoint Configuration Manager and Intune

Device platform enrollment by using Endpoint Configuration Manager MDM

On-premises mobile device management using Endpoint Configuration Manager

Preparation for Microsoft certification

Most Microsoft certification exams do not require students to attend an official MOC course in order to pass the exam.

This applies to all certifications except for MCM

Official Microsoft MOC courses as well as our own GOC courses are good ways of preparation for Microsoft certifications

such as MCP, MTA, MCSA, MCSE or MCM

This does not mean that official MOC courses would serve as the only necessary praparation. The primary goal of an MOC course is to provide for sufficient theoretical knowledge and practical experience to effectively work with the related product

MOC courses usually cover most of the topics required by their respective certification exams, but often do not give every topic the same amount of time and emphassis as may be required to completelly pass the exam
