

Mobile Device Management – SOTI MobiControl – Private training

Course code: MDM2

SOTI MobiControl® is a leading tool for enterprise mobile device management – Enterprise Mobility Management (EMM). During the training, you will become familiar with the system architecture, its installation, and management (adding devices to management, creating and distributing packages, Remote Control, reporting, security, etc.). The course also includes practical exercises covering the complete setup of a new SOTI MobiControl installation, including Zebra and Honeywell mobile devices with Android OS, or possibly Windows, along with practical demonstrations of all the topics covered.
